REPORT OF BOARD OF DIRECTORS

The Board of Directors of DSC Securities Joint Stock Company ("the Company") is pleased to present this Report and the Company's Interim Financial Statements for the accounting period of 1st Quarter of 2026.

DSC SECURITIES CORPORATION

DSC SECURITIES CORPORATION was established and operates under the Establishment and Operation License No. 29/UBCK-GPHDKD issued by the State Securities Commission on December 18, 2006 and additional change licenses.

The Company's headquarters: 2nd Floor Thanh Cong Building, 80 Dich Vong Hau, Cau Giay Ward, Hanoi City.

BOARD OF DIRECTORS, BOARD OF MANAGEMENT AND SUPERVISORS BOARD

The members of the Board of Directors during the period and at the date of this report include:

Mr.	Nguyen Duc Anh	Chairman
Mr.	Bach Quoc Vinh	Member
Ms.	Nguyen Thi Thu Ha	Member
Mr.	Bui Van Hung	Independent member
Mr.	Pham Quang Hung	Independent member (Appointed from January 14,2026)

The members of the Board of Directors during the period and at the date of this report include:

Mr.	Bach Quoc Vinh	CEO
-----	----------------	-----

Members of the Supervisory Committee include:

Ms.	Nguyen Thi Hien Ngoc	Head
Ms.	Bui Thi Ngoc Ly	Member
Ms.	Le Thi Lien	Member

RESPONSIBILITY OF THE BOARD OF MANAGEMENT

The Board of Management is responsible for preparing Financial Statements that honestly and fairly reflect the financial status, business results, and cash flow status of the Company during the period. During the preparation of the Financial Statements, the Board of Management commits to comply with the following requirements::

- Establish and maintain internal controls that the Board of Directors and the Management Board determine are necessary to enable the preparation and presentation of interim financial statements that are free from material misstatement, whether due to fraud or error;
- Select appropriate accounting policies and apply them consistently;
- Make judgments and estimates that are reasonable and prudent;
- State clearly whether applicable accounting standards have been followed and all material deviations from these standards are presented and explained in the Financial Statements;
- Prepare and present interim financial statements in compliance with Vietnamese Accounting Standards, Accounting Regime applicable to securities companies and current regulations related to the preparation and presentation of interim financial statements;
- Prepare the interim financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Board of Directors of the Company is responsible for ensuring that the accounting records are kept to reflect the financial position of the Company, with a true and fair view at any time and to ensure that the interim financial statements comply with the legal regulations of the State. At the same time, it is responsible for ensuring the safety of the Company's assets and taking appropriate measures to prevent and detect fraud and other violations.

The Board of Directors of the Company commits that the Interim Financial Statements have fairly and fairly reflected the financial position of the Company as at March 31, 2026, the results of operations, cash flows and changes in equity for the accounting period of 1st quarter of 2026, in accordance with the Vietnamese Accounting Standards and Regime applicable to securities companies and in compliance with current regulations related to the preparation and presentation of Interim Financial Statements.

Other commitments

The Board of Directors commits that the Company complies with Decree 155/2020/ND-CP of the Government dated December 31, 2020 guiding the detailed implementation of a number of articles of the Securities Law and the Company does not violate the obligation to disclose information as prescribed in Circular No. 96/2020/TT-BTC dated November 16, 2020 of the Ministry of Finance guiding the disclosure of information on the stock market.

On behalf of and representing the Board of Directors,

Bach Quốc Vinh
Bach Quốc Vinh

Chief Executive Officer

DSC SECURITIES CORPORATION

2nd Floor Thanh Cong Building, 80 Dich Vong Hau, Cau Giay Ward, Hanoi City

NOTES TO THE INTERIM FINANCIAL STATEMENTS

Corporation

Minh City, Vietnam

1.6 Investment restrictions of the securities company

The Company complies with the regulations in Article 28, Circular No. 121/2020/TT-BTC dated December 31, 2020 on regulating the operation of securities company.

2. BASIS OF PREPARING THE FINANCIAL STATEMENTS

2.1 Basis of preparing the Financial Statements

The Financial Statements of the Company are prepared and presented in Vietnam Dong (“VND”) and in accordance with Vietnamese Enterprise Accounting System, the accounting regulation and guidance applicable to securities companies as set out in Circular No. 210/2014/TT-BTC dated December 30, 2014 (“Circular 210”), Circular No. 334/2016/TT-BTC dated December 27, 2016 (“Circular 334”) amending, supplementing and replacing Appendices No. 02 and No. 04 of Circular 210/2014/TT-BTC.

The Company’s registered accounting documentation system is the General Journal Voucher system.

2.2 Fiscal year

The Company’s fiscal year starts on January 01 and ends on December 31 (Gregorian calendar).

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The main accounting policies applied by the Company in preparing the Financial Statements:

3.1 Compliance with Accounting Standards and Corporate Account Regime

The Company has complied with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting Regime and accounting guidelines applicable to securities companies and legal regulations related to the preparation and presentation of these Financial Statements.

3.2 Cash and cash equivalents

Cash and cash equivalents include cash in hand, bank deposits of securities companies, short-term investments with a maturity of no more than three months from the date of purchase, highly liquid, easily convertible into known amounts of cash and subject to an insignificant risk of conversion into cash.

Investors' deposits on securities transactions and cash deposited by securities issuers are presented on the Off-Balance sheet of the Financial Statement.

3.3 Financial assets at fair value through profit or loss (FVTPL)

FVTPL are financial assets that satisfy one of the following conditions:

- a) It is classified as held for trading. A financial asset is classified as held for trading if:
 - It is acquired or incurred principally for the purpose of selling or repurchasing it in the Short-term;
 - There is evidence of a recent actual pattern of short-term profit-taking; or
 - It is a derivative (except derivative that is a financial guarantee contract or effective hedging instrument).
- b) Upon initial recognition, a financial asset is designated by the Company as at fair value through profit or loss as it meets one of the following criteria:
 - The classification eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the asset or recognising gains or losses on a different basis;
 - The financial assets are part of a group of financial assets which are managed and their performance evaluated on a fair value basis, in accordance with the Company's risk management or investment strategy.

DSC SECURITIES CORPORATION

2nd Floor Thanh Cong Building, 80 Dich Vong Hau, Cau Giay Ward, Hanoi City

NOTES TO THE INTERIM FINANCIAL STATEMENTS

Financial assets at FVTPL are initially recognized at cost (acquisition cost of the assets excluding transaction cost arising from the purchase) and subsequently recognized at fair value.

The increase in difference arising from revaluation of FVTPL financial assets in comparison with previous period is recognized into the separate income statement under "Loss from revaluation of financial assets at FVTPL". The increase in difference arising from revaluation of FVTPL financial assets in comparison with previous period is recognized into the separate income statement under "Gain from revaluation of financial assets at FVTPL".

Transaction cost relating to the purchase of the financial assets at FVTPL are recognized when incurred as expenses in the income statement.

3.4 Held-to-maturity investment(HTM)

Held-to-maturity investments are non-derivative financial assets with fixed and determinable payments and fixed maturity that a company has the positive intention and ability to hold to maturity other than:

- Those that the Company upon initial recognition designates as at fair value through profit or loss;
- Those that the Company designates as available for sale;
- Those meet the definition of loans and receivables.

Held-to-maturity investments are recognized initially at cost (acquisition cost of the assets plus (+) transaction costs which are directly attributable to the investments such as brokerage fee, trading fee, issuance agency fee and banking transaction fee). After initial recognition, held-to-maturity financial investments are subsequently measured at amortized cost using the effective interest rate method.

Amortized cost of HTM financial investments is the amount at which the financial asset is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or uncollectibility (if any).

The effective interest rate method is a method of calculating the cost allocation on interest income or interest expense in the period of financial assets or a group of HTM investments.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liabilities.

HTM investments are subject to an assessment of impairment at the separate financial statement date. Provision is made for an HTM investment when there is any objective evidence that the investment is unrecoverable or there is uncertainty of recoverability, resulting from one or more events that have occurred after the initial recognition of the investment and that event has an impact on the estimated future cash flows of the investment that can be reliably estimated. Evidence of impairment may include a drop in the fair value/market value of the debt, indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults. When there is any evidence of impairment, provision for an HTM investment is determined as the negative difference between its fair value and amortized cost at the assessment date. Any increase/decrease in the balance of provision is recognized in the income statement under "Provision expense for diminution in value and impairment of financial assets and doubtful receivables and borrowing costs of loans".

3.5 Loans

DSC SECURITIES CORPORATION

2nd Floor Thanh Cong Building, 80 Dich Vong Hau, Cau Giay Ward, Hanoi City

NOTES TO THE INTERIM FINANCIAL STATEMENTS

Loans are non-derivative financial assets with fixed or identifiable payments and not listed on the market, with the exceptions of:

- The amounts the Company has the intent to immediately sell or will sell in a near future which are classified as assets held for trading, and like those which, upon initial recognition, the Company categorized as such recognized at fair value through profit or loss;
- The amounts categorized by the Company as available for sale upon initial recognition; or
- The amounts whose holders cannot recover most of the initial investment value not due to credit quality impairment and which are categorized as available for sale.

Loans are recognized initially at cost (disbursement value of the loans). After initial recognition, loans are subsequently measured at amortized cost using the effective interest rate method.

Amortized cost of loans is the amount at which the financial asset is measured at initial recognition minus (-) principal repayments, plus (+) or minus (-) the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or uncollectibility (if any).

Loans are subject to an assessment of impairment at the separate financial statement date. Provision made for loan is based on its estimated loss which is determined by the negative difference between the market value of securities used as collaterals for such loan and the loan balance. Any increase/decrease in the balance of provision is recognized in the income statement under "Provision expense for diminution in value and impairment of financial assets and doubtful receivables and borrowing costs of loans".

3.6 Available-for-sale (AFS)

Available-for-sale financial assets are those non-derivative financial assets that designated as available for sale or are not classified as:

- Loans and receivables;
- Held-to-maturity investments;
- Financial assets at fair value through profit or loss.

Available-for-sale financial assets are recognized initially at cost (acquisition cost of the assets plus (+) transaction costs which are directly attributable to the purchase of the financial assets). After initial recognition, available-for-sale financial assets are subsequently measured at fair value.

Any difference arising from the revaluation of AFS financial assets at market value in comparison with previous period is recognized under "Gain/(loss) from revaluation of AFS financial assets" in "Other comprehensive income after tax" which is a part of the separate income statement.

As at the separate financial statement date, the Company assessed whether there is any objective evidence that an AFS financial asset is impaired. Any increase/decrease in the balance of provision is recognized in the income statement under "Provision expenses for diminution in value and impairment of financial assets and doubtful debts and borrowing costs of loans"

- Where an equity instrument is classified as available-for-sale, evidence of impairment includes a significant or prolonged decline in the fair value of the investment below its original cost. 'Significant' is to be evaluated against the original cost of the asset and 'prolonged' indicates the period in which the fair value has been below its original cost. When any evidence of impairment exists, provision is determined as the difference between the AFS asset's cost and fair value at the assessment date.

DSC SECURITIES CORPORATION

2nd Floor Thanh Cong Building, 80 Dich Vong Hau, Cau Giay Ward, Hanoi City

NOTES TO THE INTERIM FINANCIAL STATEMENTS

- Where a debt instrument is classified as available-for-sale, the assessment of impairment is conducted using the same criteria as those applied for HTM investments. When there is any evidence of impairment, provision for an AFS asset is determined as the negative difference between its fair value and amortized cost at the assessment date.

Available-for-sale AFS financial assets are in principle valued at fair value based on listed prices on the market. If there is no listed price, they are valued according to valuation techniques and methods of valuation in accordance with current legal regulations and relevant accounting standards on financial instruments. When valuing available-for-sale AFS financial assets at fair value, the difference arising from the initial price is fully recorded in the "Revaluation difference of assets at fair value" account until there is a reclassification or when these financial assets are liquidated or sold.

3.7 Fair value/market value of financial assets

Fair value/market value of financial assets is determined as follows:

- For securities listed on Hanoi Stock Exchange and Ho Chi Minh City Stock Exchange, their market prices are their closing prices on the trading day preceding the date of the revaluation.
- For shares registered for trading on the trading market of unlisted public companies and state-owned enterprises equitizing in the form of public offering of securities (Upcom), the closing price on the most recent trading day up to the date of securities valuation announced by the Stock Exchange is calculated.
- For listed securities that are cancelled or suspended from trading or cease trading from the sixth trading day onwards, the actual securities price is the book value on the date of the most recent Financial Status Report;
- For unlisted securities and securities not registered for trading on the unlisted public companies trading market ("UPCom"), the actual securities price is the actual trading price on the over-the-counter market ("OTC"), based on the Financial Statement of the issuing organization at the time of preparing the Financial Statement.

Securities that do not have reference prices from the above sources will be assessed at fair value based on a review of the financial situation and book value of the issuer at the date of assessment of the securities value.

For the purpose of determining taxable income of the Company, the tax base of the Company's financial assets is determined by the original cost less the value of the provision for impairment. Accordingly, the market value of securities for the purpose of provisioning is determined in accordance with the provisions of Circular 48/2019/TT-BTC and Circular 24/2022/TT-BTC.

3.8 Derecognition of financial assets

A financial asset (or part of a group of similar financial assets) is derecognized when:

- a) The rights to receive cash flows from the asset have expired;
- b) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either:
 - The Company has transferred substantially all the risks and rewards of the asset, or
 - The Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the asset. In that case, the Company also recognizes an associated liability. The transferred

DSC SECURITIES CORPORATION

2nd Floor Thanh Cong Building, 80 Dich Vong Hau, Cau Giay Ward, Hanoi City

NOTES TO THE INTERIM FINANCIAL STATEMENTS

asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

The continued participation in transferred assets in the form of guarantee will be recognized at smaller value between the initial carrying value of the assets and the maximum amount that the Company is required to pay.

3.9 Reclassification of financial assets

Reclassification when selling financial assets other than FVTPL

When selling financial assets that are not FVTPL financial assets, securities companies must reclassify financial assets from other types of assets related to FVTPL financial assets. The revaluation differences of AFS financial assets currently tracked in the item "Revaluation differences of assets at fair value" will be recorded in the corresponding revenue or expense account at the date of reclassification of AFS financial assets when sold. This application is made to adjust the records of the previous year prospectively.

During the year, pursuant to Decision No. 121/2021/QĐ-TGD/DSC of the General Director, the Company plans to sell the financial assets it is holding in the short term. Accordingly, the Company has reclassified available-for-sale (AFS) financial assets to financial assets recognized through profit/(loss) (FVTPL).

Reclassification due to change in purpose or ability to hold

Securities companies are required to reclassify financial assets to their applicable categories if their purpose or ability to hold has changed, consequently:

- Non-derivative financial assets at FVTPL or financial assets that are not required to classify as financial asset at FVTPL at the initial recognition can be classified as loans and other receivables in some special cases or as cash and cash equivalents if the requirements are met. The gains or losses arising from revaluation of financial assets at FVTPL prior to the reclassification are not allowed to be reversed.
- Due to changes in purposes or ability to hold, some HTM investments are required to be reclassified into AFS financial assets and revalue at fair value. The difference arising from revaluation between carrying value and fair value are recognized under "Differences from revaluation of assets at fair value" in Owners' equity.

3.10 Receivables

Receivable are presented at the book value of receivables from customers and other receivables after deducting provisions made for bad receivables.

Provision for doubtful debts is the estimated loss due to non-payment by customers for receivables at the end of the accounting period. Provision for doubtful debts is made in accordance with the guidance in Circular No. 48/2019/TT-BTC dated August 8, 2019 of the Ministry of Finance and the assessment of the Board of Directors based on the ability to collect these receivables at the time of preparing the Financial Statements.

Increases or decreases in the reserve account balance are accounted as administrative expenses on the Income Statement.

3.11 Prepaid expenses

Prepaid expenses include short-term prepaid expenses and long-term prepaid expenses based on their original terms. These amounts are amortized over the period in which the expenses are paid or over the period in which economic benefits are expected to be generated.

The following types of expenses are recorded as prepaid expenses for allocation to the income statement.

- Tools and equipment used for large-scale use;

DSC SECURITIES CORPORATION

2nd Floor Thanh Cong Building, 80 Dich Vong Hau, Cau Giay Ward, Hanoi City

NOTES TO THE INTERIM FINANCIAL STATEMENTS

- Transmission costs;
- Data subscription fees.

3.12 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of tangible fixed assets comprises the purchase price and all other costs directly attributable to bringing the asset to working condition.

Tangible fixed assets are depreciated using the straight-line method over the estimated useful life of the asset, in accordance with Circular No. 45/2013/TT-BTC dated April 25, 2013 and Circular No. 147/2016/TT-BTC dated October 13, 2016 of the Ministry of Finance on the management, use and depreciation of fixed assets. Specifically as follows:

	Estimated useful life (year)
Machinery and equipment	03 – 05

Gains and losses arising on the disposal of assets are the difference between the proceeds from the disposal and the carrying amount of the asset and are recognised in the Income Statement.

3.13 Intangible fixed assets and depreciation

Intangible fixed assets are stated at cost less accumulated depreciation.

Cost is the total cost incurred by the enterprise to acquire the intangible fixed asset up to the time the asset is put into use as expected.

Accounting principles for intangible fixed assets are as follows:

Land Use Rights

Land use rights with no useful life are stated at cost and are not amortized according to current regulations.

Computer software

Computer software that is not an integral part of hardware is recorded as an intangible fixed asset and is amortized over its useful life.

3.14 Payable expenses

Warrant payable

A secured call warrant is a security with collateral issued by the Company, allowing the owner to purchase the underlying security from the organization issuing the warrant at a certain exercise price, or receive the difference when the price (index) of the underlying security is higher than the exercise price (exercise index) at the time of exercise.

When distributing warrants, the Company records an increase in the warrant payable and simultaneously monitors the number of warrants that are still allowed to be issued off the balance sheet. At the end of the period, the Company re-evaluates the warrant at fair value. In case the price of the outstanding warrant decreases, the difference is recorded in “Gain from FVTPL financial assets” (details “Difference due to revaluation of outstanding warrant payable”). In case the price of outstanding warrants increases, the difference is recorded in “Loss from FVTPL financial assets” (detail “Increase in difference due to revaluation of outstanding warrants payable”).

The cost of purchasing and issuing warrants is recorded in the transaction costs of purchasing financial assets of the Statement of Operations as soon as it arises. Gains/(losses) when repurchasing warrants, when warrants expire or when warrants are withdrawn are recorded in the item “Gains on sale of FVTPL

DSC SECURITIES CORPORATION

2nd Floor Thanh Cong Building, 80 Dich Vong Hau, Cau Giay Ward, Hanoi City

NOTES TO THE INTERIM FINANCIAL STATEMENTS

financial assets” or “Losses on sale of FVTPL financial assets” respectively on the Statement of Operations.

The Company monitors in detail the securities hedging risks for covered warrants. At the end of the period, the value of the underlying securities for hedging risks is re-evaluated and the revaluation is recorded similarly to the revaluation of financial assets recorded through FVTPL gains/(losses).

Other payables and accruals

Other payables and accruals are recognised for amounts to be paid in the future for bond interest, goods and services received, whether or not the Company has received invoices from suppliers.

3.15 Owner's equity

Owners' capital contribution

Owner's equity is recorded at the actual capital contributed by shareholders.

Share premium

Share premium is recorded at the difference between the issue price and the par value of the shares, the difference between the purchase price of treasury shares and the reissue price of treasury shares.

Other capital of owners

Other capital is formed by supplementing from business results, revaluation of assets and the remaining value between the fair value of donated, donated, and sponsored assets after deducting taxes payable (if any) related to these assets.

Dividends

Dividends are recorded as a payable on the date of dividend announcement.

Profit Distribution

Net profit after corporate income tax may be distributed to shareholders after being approved by the General Meeting of Shareholders and after setting aside reserve funds in accordance with the Company's Charter and the provisions of Vietnamese law.

3.16 Revenue and other income

Revenue from securities brokerage activities

When the outcome of a contract can be reliably determined, revenue will be recognized based on the level of completion of the work. In cases where the outcome of a contract cannot be reliably determined, revenue will only be recognized to the extent that the costs recognized are recoverable.

Income from securities trading

Income from securities trading is determined based on the difference between the selling price and the average cost of securities.

Other income

Other income includes income from irregular activities, other than revenue-generating activities, including: Income from liquidation of fixed assets (“fixed assets”), transfer of fixed assets.

Interest income

Revenue is recognized when interest arises on an accrual basis (taking into account the income generated by the asset) unless the collectibility of interest is uncertain.

DSC SECURITIES CORPORATION

2nd Floor Thanh Cong Building, 80 Dich Vong Hau, Cau Giay Ward, Hanoi City

NOTES TO THE INTERIM FINANCIAL STATEMENTS

Dividends

Revenue is recognised when the Company's right to receive the dividend payment is established, except for dividends received in shares which are only updated and tracked by the number of shares held and are not recognised as revenue.

Revenue from rendering of other services

When the outcome of the contract can be measured reliably, revenue is recognised based on the stage of completion of the work.

If the outcome of the contract cannot be measured reliably, revenue is recognised only to the extent of the costs recognised that are recoverable.

3.17 Method of calculating the cost of Proprietary trading sold

The Company applies the moving weighted average method to calculate the cost of Proprietary trading.

3.18 Basic earnings per share

Basic earnings per share is calculated by dividing the Company's after-tax profit after deducting the bonus and welfare fund by the average total number of common shares outstanding during the period, excluding the shares repurchased by the Company and held as treasury shares.

3.19 Diluted earnings per share

Diluted earnings per share is calculated by dividing the Company's after-tax profit after deducting the bonus and welfare fund by the average total number of common shares outstanding during the period and the total number of common shares expected to be issued, excluding the shares repurchased by the Company and held as treasury shares.

3.20 Taxes

Current corporate income tax

Income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the tax authorities, using tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. During the period, the Company is required to pay corporate income tax at the rate of 20% of profits from all business activities.

The Company's tax reports are subject to examination by the tax authorities. Since the application of tax laws and regulations to many types of transactions is susceptible to varying interpretations, the amounts reported in the financial statements may be subject to change upon final determination by the tax authorities.

Value Added Tax

- Securities trading activities include: Securities brokerage, securities investment consultancy, securities depository, securities investment fund management, securities investment portfolio management, lending money to customers to conduct margin transactions, advance payment for securities sales and other securities trading activities as prescribed by law are not subject to value added tax
- Other activities: Subject to tax rate of 10%.

Other taxes

Other taxes are applied according to current tax laws in Vietnam.

DSC SECURITIES CORPORATION

2nd Floor Thanh Cong Building, 80 Dich Vong Hau, Cau Giay Ward, Hanoi City

NOTES TO THE INTERIM FINANCIAL STATEMENTS**3.21 Related parties**

- Parties are considered to be related if one party has the ability to control or exercise significant influence over the other party in making financial and operating policy decisions. Parties are also considered to be related if they are subject to common control or common significant influence.
- In considering the relationship of related parties, attention is paid to the substance of the relationship rather than to the legal form.
