NOTES TO THE FINANCIAL STATEMENTS

FOR THE PERIOD FROM JANUARY 01st, 2026 TO JUNE 30th, 2026

1 GENERAL INFORMATION

Establishment and operation licence

Vietcap Securities Joint Stock Company ("the Company") is a joint stock company incorporated in Vietnam under Establishment and Operation licence No. 68/UBCK – GP dated November 6th, 2007 issued by the State Securities Commission. The Establishment and Operation licence was amended several times and the latest amendment No. 47/GPĐC-UBCK was issued on April 21st, 2026.

Headquarter and contact information

The Company's headquarter is in Ho Chi Minh City, at 15th floor of Bitexco Financial Tower, 2 Hai Trieu Street, Sai Gon Ward.

Contact information:

Email: info@vietcap.com.vn

Telephone: (+84) 28 3914 3588

Company charter

The Company's latest Charter was approved in the General Meeting of Shareholders and effective from 9 April 2021 and last modified on 29 June 2026.

Core operation activities

The core activities of the Company are brokerage services; proprietary trading; consultancy services for securities investment; issuance underwriting; and custodian services.

On May 25th, 2017, the Company was granted a certificate of eligibility for derivatives trading by the State Securities Commission (brokerage, proprietary trading, investment consulting) and qualified to provide clearing and payment services for derivatives transactions.

Capital size

The Company's charter capital in its latest Establishment and Operation Licence is VND 11,476,319,250,000. On 29 June 2026, the Company issued 4,600,000 shares under the 2026 Employee Stock Ownership Plan and is currently applying for updates to its Establishment and Operation Licence and Enterprise Registration Certificate.

Corporate structure

Vietcap Securities has no subsidiaries.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation of financial statements

The financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System, Circular

210/2014/TT-BTC dated 30 December 2014 ("Circular 210/2014/TT-BTC"), Circular 334/2016/TT-BTC dated 27 December 2016 ("Circular 334/2016/TT-BTC"), Official Letter No. 6190/BTC-CĐKT dated 12 May 2017 ("Official Letter 6190/BTC-CĐKT") and Circular 23/2018/TT-BTC dated 12 March 2018 ("Circular 23/2018/TT-BTC"), all issued by the Ministry of Finance, and prevailing regulations on preparation and presentation of financial statements applicable to securities companies operating in Vietnam.

The financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets at fair value through profit or loss ("FVTPL") and available-for-sale financial assets ("AFS") based on market value or fair value (in case market value is not available).

The accompanying financial statements are not intended to present financial position, results of operations, cash flows and changes in equity in accordance with accounting principles generally accepted in jurisdictions other than Vietnam. The accounting principles and practices utilised in Vietnam may differ from those generally accepted in countries and jurisdictions other than Vietnam.

2.2 Significant changes in accounting policies

There were no changes in accounting policies applied during the reporting period.

2.3 Form of records applied

The Company uses the accounting software in general journal to record its transactions.

2.4 Fiscal year

The Company's fiscal year is from January 1st to December 31st.

2.5 Currency

The financial statements are measured and presented in Vietnamese Dong ("VND").

Transactions arising in foreign currencies are translated at exchange rates prevailing at the transaction dates. Foreign exchange differences arising from these transactions are recognised as income or expenses in profit or loss of the statement of comprehensive income.

Monetary assets and liabilities denominated in foreign currencies at the reporting date, except borrowings and liabilities whose foreign exchange risk exposure has been hedged, are respectively translated at the buying and selling exchange rates at the reporting date of the commercial banks with which the Company regularly transacts. Foreign currencies deposited in bank at the reporting date are translated at the buying exchange rate of the commercial bank where the Company opens the foreign currency accounts. Foreign exchange differences arising from these translations are recognised in profit or loss of the statement of comprehensive income.

2.6 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash at bank, cash in transit of the Company, security deposit for covered warrants issued and other short-term investments with maturity within three (3) months since purchase, which are highly liquid, readily convertible to cash and subject to an insignificant risk of conversion.

Cash of customers for securities trading activities and cash of issuers are accounted for off statement of financial position.

2.7 Financial assets

(a) Classification and measurement

(i) Financial assets measured at fair value through profit or loss (FVTPL)

Financial assets at fair value through profit or loss are financial assets held for trading or designated by the Board of Management at initial recognition at fair value through profit or loss.

A financial asset is classified as held for trading if meeting one of the following conditions:

- It is purchased or created for resale/repurchase in a short-term period; or
- At initial recognition, it constitutes a part of an identified portfolio of financial instruments which are traded for short-term profits; or
- It is a derivative (except those defined as financial guarantees or effective hedges).

At initial recognition, the Board of Management designates a financial asset at fair value through profit or loss if such designation promotes the fairness of its presentation due to one of the following reasons:

- Such designation eliminates or significantly reduces a measurement or recognition inconsistency (also called as “accounting mismatch”) that would otherwise arise due to different bases; or
- It gives rise to a group of financial assets whose performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy and internally disseminated to the Company’s key management (as defined in Vietnamese Accounting Standard 26 on Related party disclosures) such as Board of Directors, Board of Management and major shareholders.

Financial assets at fair value through profit or loss are initially recorded at cost exclusive of transaction costs. Transaction costs related to purchases of FVTPL financial assets are expensed off immediately.

Financial assets at fair value through profit or loss are subsequently measured at market value or fair value (in case market value is not available). Equity instruments that are not traded on an active market or those whose fair value is not reliably determined are accounted for at cost.

All gains or losses arising from change in fair value of FVTPL financial assets are recognised in profit or loss of the statement of comprehensive income.

(ii) Held-to-maturity financial assets (HTM)

HTM financial assets are non-derivative financial assets with the following characteristics:

- Payments are fixed or determinable;
- Maturity is fixed; and
- The Company has positive intention and ability to hold those assets to maturity.

The following assets are excluded from HTM financial assets:

- Non-derivatives classified as FVTPL financial assets at initial recognition;
- Non-derivatives classified as available-for-sale ("AFS") financial assets; and
- Non-derivatives qualifying conditions to be classified as loans and receivables.

A financial asset shall not be classified as held-to-maturity if the Company has, during the current financial year or during the two preceding financial years, sold or reclassified more than an insignificant amount of HTM financial assets before maturity (more than insignificant in relation to the total amount of HTM financial assets) other than sales or reclassifications that:

- are so close to maturity or the financial asset's call date (less than three months before maturity) that changes in the market rate of interest would not have a significant effect on the financial asset's fair value;
- occur after the Company has collected substantially all of the financial asset's original principal through scheduled payments or prepayments; or
- are attributable to an isolated event that is beyond the Company's control, is non-recurring and could not have been reasonably anticipated by the Company.

HTM financial assets are initially recorded at cost inclusive of directly attributable purchase costs, subsequently measured at amortised cost using effective interest rate method ("EIR").

Effective interest method is a method used in calculating the amortised cost of an HTM financial asset or a group of HTM financial assets and in the allocation and recognition of the interest revenue or interest expense in profit or loss over the relevant period.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the financial instrument's expected life, or a shorter period where appropriate, to the net present value of a financial asset or a financial liability.

Amortised cost of HTM financial assets is determined at historical cost less principal received plus (or less) accumulated amortisation using effective interest rate method between historical cost and maturity value, less impairment loss (if any).

At the reporting date, HTM investments are provided for impairment loss when there is any objective evidence of impairment or uncollectibility as a result of one or more events that occurred subsequently to initial recognition and affected estimated future cash flows of HTM investments. Objective evidence of impairment may include:

- Significant financial difficulty of the issuer or the obligor;
- A breach of contract, such as default or delinquency in interest or principal payments;
- The lender, for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;
- It is becoming probable that the borrower will enter bankruptcy or another financial reorganisation;

- Observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group, including:

- (i) Adverse changes in the payment status of borrowers in the group; or
- (ii) National or local economic conditions that correlate with defaults on the assets in the group;

Provision for impairment of HTM financial assets is determined at the difference of the estimated recoverable amount and the carrying value of HTM financial assets at the reporting date. Provision/reversal of provision for such impairment is debited/credited to expenses in profit or loss of the statement of comprehensive income.

HTM financial assets are classified as current and non-current assets in the statement of financial position based on their remaining maturity as at the reporting date.

(iii) *Loans*

Loans are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

In the reporting year, the Company had the following types of loans:

- Margin loans: the amounts lent to customers for their purchases of listed securities in accordance with Decision 87/QĐ-UBCK issued by the State Securities Commission on 25 January 2017. According to this regulation, the initial margin (ratio of net equity to market value of security to be purchased on margin as at trading date) is set by the Company but shall be not lower than 50%. The margin loans are collateralised by securities eligible for margin lending.

- Trading advances: the amounts advanced to customers for their sales of securities awaiting settlement, which will be collected on the clearing settlement date of that sale transaction. According to Decision 109/QĐ-VSD, from 29 August 2022 of VSDC, the clearing settlement time is before 12 PM on the second business day following the trading date.

Loans are initially recorded at cost and subsequently measured at amortised cost using the effective interest rate method ("EIR").

Amortised cost of loans is determined at historical cost less principal received plus (or less) accumulated amortisation using effective interest rate between historical cost and maturity value, less impairment loss (if any).

As at reporting date, loans are provided for impairment loss when there is any objective evidence of impairment. Provision for impairment of loans is determined at the difference of market value of collateral and the carrying value of loans at the reporting date. Provision/(reversal of provision) for such impairment is debited/credited to expenses in profit or loss of the statement of comprehensive income.

(iv) *Available-for-sale financial assets (AFS)*

Available-for-sale financial assets are non-derivative financial assets that are not classified as FVTPL, HTM, nor loans and receivables.

Available-for-sale financial assets are initially recorded at cost inclusive of directly attributable purchase cost.

At the reporting date, AFS financial assets are measured at fair value. Shares not traded on an active market or those whose fair value is not reliably determined are accounted for at cost.

All gains or losses from revaluation of AFS financial assets are accounted for directly in equity (other comprehensive income) through the statement of changes in equity, exclusive of impairment losses. Such recognition is applied until the asset is derecognised.

At derecognition, accumulated gains or losses in equity are recognised in profit or loss of the statement of comprehensive income as a reclassification. Gains using effective interest method is recognised in profit or loss of the statement of comprehensive income in accordance with the Vietnamese Accounting Standard 14 - Revenue and other income.

At the reporting date, AFS financial assets are provided for impairment loss when there is any objective evidence of impairment.

Objective evidence of impairment for debt instruments may include those identified as for HTM financial instruments.

Objective evidence of impairment for equity instruments may include:

- Significant changes which adversely affect the issuer's operations as a result of their impacts on the technological, market, economic or legal environment, and indicates that the cost of the equity instrument may not be recovered;
- A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.

Provision for impairment is determined at the difference of the estimated recoverable amount and the carrying value of AFS financial assets at the reporting date.

Impairment loss of AFS financial asset is recorded directly to previously recognised revaluation gain in equity (if any). When there is objective evidence that the AFS financial asset is impaired, accumulated revaluation loss in equity is reclassified to profit or loss of the statement of comprehensive income despite that asset is yet derecognised.

(b) Reclassification

(i) Reclassification of non-FVTPL financial assets upon disposal

Non-FVTPL financial assets are reclassified to FVTPL financial assets before disposal. Accumulated revaluation of AFS financial assets in equity will be recorded as a profit or loss in the statement of comprehensive income as a reclassification.

(ii) Reclassification due to change in intention/ability to hold the financial assets

Reclassification of financial assets due to change in intention/ability to hold the assets is permitted, provided that:

- Non-derivative FVTPL financial assets that are not required to be classified as FVTPL at initial recognition may be reclassified as loans and receivables in limited circumstances or cash and cash equivalents if meeting certain conditions for reclassification. Gains and losses from revaluation of FVTPL financial assets arising before the reclassification are not reversed.
- If the change in intention/ability to hold a financial asset result in it being inappropriately reclassified as an HTM asset, that asset must be reclassified as AFS and re-measured at fair value. Difference between its carrying value and fair value is recognised as other comprehensive income/(loss) in the statement of comprehensive income as a reclassification.

(c) Recognition/de-recognition

Purchases and sales of financial assets are recognised on trade date – the date on which the Company becomes a party to the contractual provisions of the instruments.

Financial assets are de-recognised when the right to receive cash flows from the financial assets has expired or the Company has transferred substantially all risks and rewards of ownership of those financial assets.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement but has neither transferred substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Company's continuing involvement in the asset. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

(d) Initial recognition

FVTPL financial assets are initially recognised at purchase cost exclusive of transaction costs. Other financial assets are initially recorded at historical cost including directly attributable purchase cost.

Bonus issues and stock dividends are initially recognised as financial assets at nil cost.

(e) Determination of market value/fair value

The Company applies valuation bases for financial assets in accordance with Circular 91/2020/TT-BTC on 13 November 2020 regarding capital adequacy ratio of securities trading entities ("Circular 91/2020/TT-BTC") in determining the market value/fair value of financial assets, in particular:

- (i) *Shares listed on stock exchanges, shares of public companies registered for trading on the Unlisted Public Company Market ("UPCoM")*

Listed shares are revalued at the closing price of the latest trading date prior to the reporting date. Shares traded on UPCoM are revalued based on the reference price of the latest trading day prior to the reporting date.

(ii) *Other shares*

Other shares are revalued based on the Company's valuation techniques. Shares without sufficient trading information and whose fair value cannot be reliably measured are stated at cost.

(iii) *Bonds listed on stock exchanges*

These bonds are revalued basing on the quoted price (also called "clean price") on stock exchanges at the latest trading date up to the valuation date plus accumulated accrued interests.

(iv) *Unlisted bonds*

Unlisted bonds are measured at their purchase prices plus accumulated accrued interests.

(v) *Certificates of open-ended funds/exchange traded fund ("ETF")*

Certificates of open-ended funds/ETF are revalued at net asset value per one (1) fund unit on their latest valuation date up to the reporting date of the Company.

(vi) *Delisted shares, shares suspended for trading, shares paused for trading from sixth day onwards*

These shares are revalued based on their book values at the latest reporting date.

(vii) *Certificates of deposit*

Certificates of deposit are revalued at purchase price plus accrued interest up to the reporting date.

Fair value of other securities not mentioned above are based on assessment of issuer's financial position and book value as of the valuation date.

(f) *Recognition of gains/(losses)*

Purchase transaction costs

Transaction costs related to purchases of FVTPL financial assets are expensed off in profit or loss of the statement of comprehensive income, while transaction costs related to purchases of other financial assets are included in the cost of these assets.

Selling transaction costs

Selling transaction costs are expensed off in profit or loss of the statement of comprehensive income.

Gain/(loss) on disposal

Gain/(loss) on disposal of financial assets are accounted for as income/(expenses) in profit or loss of the statement of comprehensive income. Costs of disposed financial assets are determined using the weighted average method up to the end of trading dates.

Provision/(reversal of provision) for impairment of financial assets

Provision/(reversal of provision) for impairment of financial assets is debited/(credited) to expenses in profit or loss of the statement of comprehensive income.

2.8 Receivables

Receivables represent receivables from disposal of financial assets, dividend and interest receivable, service-related receivables, receivables from trading errors and other receivables. Receivables are recorded on an accrual basis and presented at cost less provision for impairment (if any).

Receivables are classified into current and non-current assets in the statement of financial position based on their remaining period from the statement of financial position date to the maturity date.

Provision for doubtful debts is made for each outstanding amount based on overdue days in payment according to initial payment commitment (exclusive of the payment rescheduling between parties), or based on the estimated loss that may arise. The difference between the provision of this year and the provision of the previous year is recognised as an increase or decrease of expenses in profit or loss of the statement of comprehensive income. Bad debts are written off when identified.

2.9 Futures

Futures are listed derivatives in which the parties commit to:

- Buy or sell a volume of underlying asset at a pre-determined price on a pre-determined future date; or
- Settle the difference between the pre-determined transaction price and the price of the underlying asset on the pre-determined future date.

The Company accounts for futures in accordance with guidance of the Official Letter 6190/BTC-CĐKT, in particular:

Proprietary trading activities

Deposit for derivative trading activities is accounted for as 'Other current assets' in the statement of financial position.

Securities deposited for derivative trading activities are not de-recognised but rather monitored under sub-accounts of the same type of financial assets and separately disclosed in the financial statements.

Gain (or loss) on futures position is determined and settled on a daily basis at the difference between the closing settlement price on accounting date and that on the latest trading date. Gain (or loss) on futures position is accounted as realised income (or expense) in the statement of comprehensive income under item 'Gain (or loss) on disposal of FVTPL financial assets.'

Interest arising on deposit for derivative trading activities is accounted for as a financial income in the statement of comprehensive income under item 'Dividend income and interest income from demand deposits.'

Brokerage activities

Deposit in Derivative Clearing Fund is accounted for as 'Other non-current assets' in the statement of financial position.

Revenue from futures brokerage is accounted for in the statement of comprehensive income under item 'Brokerage fee income'.

Cash and securities deposited for derivative trading activities of customers is accounted for off statement of financial position under item 'Customers' deposits for derivative trading' and 'Customers' deposits at VSDC'.

2.10 Accounting treatments for pledged investments

During the year, the Company had pledged certain investments to secure its contractual obligations.

According to the provisions of the respective contracts, during the contract terms, the Company may not use the pledged assets to sell, transfer, enter into sale and repurchase agreements or swap contracts with any other third party.

If the Company fails to fulfil its obligations, the pledgees have the right to use the pledged assets as means to secure the Company's obligations after a stipulated point of time since which the obligations become past due.

Pledged assets are presented in the statement of financial position following accounting policies applied to the type of assets into which they are classified.

2.11 Fixed assets

Tangible and intangible fixed assets

Fixed assets are stated at historical cost less accumulated depreciation or amortisation. Historical cost includes any expenditure that is directly attributable to the acquisition of the fixed assets bringing them to suitable conditions for their intended use. Expenditure which is incurred subsequently and has resulted in an increase in the future economic benefits expected to be obtained from the use of fixed assets, can be capitalised as an additional historical cost. Otherwise, such expenditure is charged to the income statement when incurred in the year.

Depreciation and amortisation

Fixed assets are depreciated and amortised using the straight-line basis method so as to write off the depreciable amount of the fixed assets over their estimated useful lives. The principal annual rates of each asset class are as follows:

Motor vehicles	16.67%/year
Office equipments	33.33%/year
Computer software	33.33% - 50%/year

Disposals

Gains or losses on disposals are determined by comparing net disposal proceeds with the carrying amount of the fixed assets and are recognised as income or expense in the statement of comprehensive income.

Construction in progress

Construction in progress represents the cost of assets in the course of installation or construction for operation or administrative purposes, or for other purposes not yet determined, which are recorded at cost and are comprised of such necessary costs to acquire the assets. Depreciation of these assets, on the same basis as other fixed assets, commences when they are ready for their intended use.

2.12 Leased assets

Leases where a significant portion of the risks and rewards of ownership is retained by the lessor are classified as operating leases. Payments made under operating leases are charged to profit or loss on a straight-line basis over the term of the lease.

2.13 Prepaid expenses

Prepaid expenses include short-term and long-term prepayments on the statement of financial position. Short-term prepaid expenses represent prepayments for goods and services; or tools that do not meet the recognition criteria for fixed assets for a period not exceeding 12 months or a business cycle from the date of prepayment. Long-term prepaid expenses represent prepayments for goods and services; or tools, which do not meet the recognition criteria for fixed assets for a period exceeding 12 months or more than one business cycle from the date of prepayment. Prepaid expenses are recorded at historical cost and allocated to expenses on a straight-line basis over their estimated useful lives.

2.14 Pledged assets, mortgaged assets, security deposits

Short-term/long-term security deposits are recognised when the Company makes its payments in accordance with the contractual terms and are classified as other current/non-current assets.

2.15 Liabilities

(a) Recognition/de-recognition

Liabilities are recognised when the Company has an obligation as a result of receipts of assets, commits or becomes a party to the contractual provisions. Liabilities are de-recognised when such obligations are fully discharged. Liabilities are recognised on an accrual basis and on prudence concept.

(b) Classification

Classifications of liabilities are based on the type of transactions on which they arise as follows:

- Borrowings;
- Issued bonds;
- Trading obligations;

- Covered warrant liabilities;
- Trade payables arising from purchases of financial assets, goods or services;
- Advances from customers; and
- Other payables including non-trade payables and those not arising from purchases of financial assets, goods and services.

Liabilities are classified as current and non-current liabilities in the statement of financial position based on their remaining year from the reporting date to their maturity dates.

2.16 Offsetting financial instruments

Financial liabilities are contractual obligations to deliver cash or another financial asset to another entity, or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the Company, or contracts that may be settled in the Company's own equity instruments.

Financial assets and liabilities are offset, and the net amount is presented in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and the Company has an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously.

2.17 Borrowings

Borrowings include borrowings from banks, financial institutions, finance companies and other entities. Borrowings are stated at cost as at reporting date.

Borrowings are classified as current and non-current liabilities on the statement of financial position based on their remaining period from the reporting date to their maturity dates.

2.18 Issued bonds

Issued bonds are initially recognised at their issuance prices. Premiums/(discounts) are determined at issuance and allocated to borrowing costs or capitalised during the bond tenors using straight-line method.

Issued bonds balances are presented on a net basis (par values plus unallocated premiums or minus unallocated discounts at the reporting date).

Issued bonds are classified as current and non-current liabilities in the statement of financial position based on their remaining tenors.

2.19 Covered warrants

Covered warrant is a collateralised security issued by securities companies that gives the holders the right to buy from (call warrant) or sell to (put warrant) the warrant issuer an underlying asset at a pre-determined price, at or by a pre-determined point of time, or receive an amount of cash at the difference between exercise price and price of the underlying asset on exercise date. The securities companies issuing covered warrants are required to deposit cash and financial assets, or obtain bank guarantees to secure their obligations to the warrant holders.

The Company accounts for covered warrants in accordance with guidance of the Circular 23/2018/TT-BTC, in particular:

Covered warrants issued by the Company

Proceeds from issuance of warrants are accounted as covered warrant liabilities.

When the Company buys back covered warrants it issued for market-making purpose, or when the covered warrants are delisted and buybacks are mandatory, positive (or negative) differences between buyback price and carrying value of covered warrants are recognised as loss (or gain) in the statement of comprehensive income.

All costs incurred for buybacks and issuance of covered warrants are expensed off immediately. Indemnifications for customers due to late payments are accounted as other expenses.

As at reporting date, covered warrants are fair valued. Increase (or decrease) in fair value of covered warrants is recognised in loss (or gain) in the statement of comprehensive income.

Gain (or loss) on expiry of covered warrant is recognised as gain (or loss) on disposal of FVTPL financial assets in the statement of comprehensive income.

Authorised quantity of covered warrants, issued quantity of covered warrants and buyback quantity of covered warrants are monitored off the statement of financial position. Quantities of covered warrants authorised but not yet issued as at reporting date are disclosed in off statement of financial position items.

Securities used as hedges against covered warrants

Securities used as hedges against position of covered warrants are monitored under separate accounts and revalued at reporting date. Revaluation result is accounted similarly to FVTPL and AFS financial assets.

Proprietary trading of covered warrants

When the Company purchases covered warrants issued by other issuers for investing purpose, such covered warrants are accounted for similarly to FVTPL financial assets.

2.20 Income tax paid on behalf of investors

According to the prevailing taxation regulations in Vietnam, the Company is required to withhold taxes on capital transfer and dividend of foreign institutional investors and individual investors (both residents and non-residents to declare and pay on their behalf. For local institutional investors, the Company is not responsible for withholding taxes as these entities are responsible for their own tax declarations and payments.

2.21 Accrued expenses

Accrued expenses include liabilities for goods and services received in the year but not yet paid for, due to pending invoices or insufficient records and documents. Accrued expenses are recorded as expenses in the reporting year.

2.22 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the expenditures expected to be required to settle the obligations. If the time value of money is material, provisions will be measured at the present value using pre-tax rates that reflect current market assessments of the time value of money and the risks specific to the obligations. The increases in the provision due to passage of time are recognised as financial expenses.

Changes in the provision balances during the financial year are recorded as an increase or decrease into operating expenses.

2.23 Equity

(a) Owners' capital

Owners' capital is recorded according to the actual amounts contributed at the par value of the shares.

Share premium is the difference between the par value and the issue price of shares and the difference between the repurchase price and re-issuing price of treasury shares.

(b) Revaluation reserve

Revaluation reserve reflects the differences arising on revaluation of AFS after deducting relevant deferred taxes.

(c) Financial and operational risk reserve and supplementary capital reserve

From 1 February 2022, Circular 114/2021/TT-BTC issued by the Ministry of Finance on 17 December 2021 is effective, accordingly:

- The financial regimes applicable to securities companies stipulated in Circular 146/2014/TT-BTC issued by the Ministry of Finance on 6 October 2014 are revoked in full.
- The balance of Supplementary capital reserve made in accordance with Circular 146/2014/TT-BTC shall be added to the Company's charter capital in line with Securities Law 2019, the related guidelines and the Company's charter.
- The balance of Financial risk and operation reserve made in accordance with Circular 146/2014/TT-BTC shall be added to the Company's charter capital or utilised in line with resolution of Annual General Meeting of shareholders, Securities Law 2019 and related guidelines, the Company's charter, while ensuring financial safety ratio pursuant to securities regulations.

(d) Undistributed earnings

Undistributed earnings record the Company's results (profit or loss) after CIT at the reporting date including cumulative realised profits and cumulative unrealised profits.

Unrealised profit/(loss) of the year is the total difference between gain and loss arising from revaluation of financial assets at FVTPL or other financial assets charged into the statement of comprehensive income and deferred income tax arising from such revaluation.

Realised profit during the year is the difference between total revenue, income and total expenses in the statement of comprehensive income, except for gain or loss arising from revaluation of financial assets recognised in unrealised profit/(loss).

2.24 Dividend

The Company's dividend is recognised as a liability in the financial statements in the year in which the Board of Directors declares dividends in accordance with dividend approval in the General Meeting of Shareholders, the Company's Charter and prevailing regulations.

Dividend base for distribution is post-tax realised profits after deducting amounts appropriated to reserves in accordance with the Company Charter and applicable regulations.

2.25 Assets of customers and liabilities to customers

Assets of customers and liabilities to customers are presented as off statement of financial position including:

- Customers' deposits for securities trading, cash of securities issuers and related liabilities; and
- Financial assets of customers.

2.26 Revenue and income recognition

(a) *Revenue from provision of services to investors*

Revenue from provision of services to investors comprises securities brokerage fees, securities underwriting fees, investment consultancy fees, financial consultancy fees, securities custody service and entrustment service fees.

Revenue from the provision of services is recognised in the statement of comprehensive income when the services are rendered, by reference to completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total services to be provided. Revenue from the provision of services is only recognised when all four following conditions are satisfied:

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company;
- The percentage of completion of the transaction at the reporting date can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

When the outcome of a service delivery transaction cannot be ascertained, revenue is recognised in proportion to the recognised and recoverable cost.

Revenue deductions include price discounts. Revenue deductions incurred in the same period of the related revenue are recorded as a deduction from the revenue of that period.

Revenue deductions incurred after the reporting date but before the issuance of the financial statements are recorded as a deduction from the revenue of the reporting period.

(b) *Income from proprietary trading of financial assets*

Income from proprietary trading of financial assets comprises gain/(loss) from sales or disposal of financial assets and dividend income.

The Company revaluates fair value of FVTPL financial assets monthly. The increase in revaluation of FVTPL financial assets is recognised as income and the decrease in revaluation of FVTPL financial assets is recognised as expense in the statement of comprehensive income on a cumulative basis and not net-off.

Gain/(loss) from sales or disposal of financial assets is measured as difference between selling price before selling costs and costs of securities disposed. Costs of securities disposed are determined using the weighted average method up to the end of trading dates.

Dividend income is recognised in the statement of comprehensive income when the Company's right to receive dividend is established, except for scrip dividends whose quantity is added to the Company's securities portfolio and is not recognised as income.

(c) *Income from working capital management*

Income from working capital management comprises interest income from deposits at bank, income from HTM investments, income from margin loans and trading advances. Income from working capital management is recognised on the basis of the actual time and interest rates for each period when both (2) of the following conditions are simultaneously satisfied:

- It is probable that the economic benefits associated with the transaction will flow to the Company; and
- income can be measured reliably.

(d) *Other income*

Other income includes non-recurring income generated from activities other than those generating the revenue and income described above.

2.27 Expenses

(a) *Recognition*

Expenses are recognised on an accrual basis, matching with revenue and on prudence concept.

(b) *Classification*

Expenses are classified by function as follows:

- Operating expenses;
- Financial expenses;
- General and administrative expenses; and
- Other expenses.

2.28 Financial income

Financial income reflects income from investment activities arising during the year mainly including interest income from bank deposits and foreign exchange gains.

2.29 Financial expenses

Financial expenses are expenses incurred in the year for financing activities mainly including interest expenses, expenses directly attributable to obtaining syndicated loan facilities and foreign exchange losses.

For borrowings denominated in foreign currencies, the Company hedges against foreign exchange risk by entering into forward contracts and cross currency swap contracts with local commercial banks, and therefore does not subsequently translate such borrowings using the closing rate in accordance with Vietnamese Accounting Standard 10 – “The Effects of Changes in Foreign Exchange Rates”. The cost of hedging arising from these derivative contracts is accrued monthly as financial expense in the income statement, and is a part of expenses relating to syndicated borrowings.

Expenses directly attributable to obtaining syndicated loan facilities (except interest expenses) that are payable to the syndicated lenders at the time of loan origination are recognised as a prepayment and allocated in a straight-line basis into financial expenses over the loan tenor.

2.30 General and administrative expenses

General and administration expenses represent expenses that are incurred for administrative purposes.

2.31 Current and deferred income tax

Income taxes include all income taxes which are based on taxable profits. Income tax expense comprises current tax expense and deferred tax expense.

Current income tax is the amount of income taxes payable or recoverable in respect of the current period taxable profit at the year current tax rates. Current and deferred income tax should be recognised as an income or an expense and included in profit or loss of the year, except to the extent that the tax arises from a transaction or event which is recognised, in the same or a different year, directly in equity.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of occurrence affects neither the accounting nor the taxable profit or loss. Deferred income tax is determined at the tax rates that are expected to apply to the financial year when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted by the date of the statement of financial position.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

2.32 Related parties

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the Company, including holding companies, subsidiaries and fellow subsidiaries are related parties of the Company. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Company that gives them significant influence over

the Company, key management personnel, including members of the Board of Directors, members of the Board of Supervisory, and members of the Board of Management of the Company and close members of the family of these individuals and companies associated with these individuals also constitute related parties.

In considering its relationship with each party, the Company considers the substance of the relationship, and not merely the legal form.

2.33 Segment reporting

A segment is a component which can be separated by the Company engaged in sales of goods or rendering of services ("business segment"), or sales of goods or rendering of services within a particular economic environment ("geographical segment"). Each segment is subject to risks and returns that are different from those of other segments.

2.34 Nil items

Items required by Circular 334/2016/TT-BTC, Official Letter 6190/BTC-CĐKT and Circular 23/2018/TT-BTC that are not presented in these financial statements indicate nil items.

3 NOTES TO THE STATEMENT OF FINANCIAL POSITION

20 DEFERRED INCOME TAX

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes relate to the same taxation authority. The offset amounts are as follows:

	30.06.2026	01.01.2026
	VND	VND
Deferred income tax assets to be recovered within 12 months (a)	1,140,882,899	3,060,478,049
Deferred income tax liabilities to be recovered within 12 months (b)	(360,837,398,581)	(673,913,560,454)
Total	(359,696,515,682)	(670,853,082,405)

Movements in the deferred income tax, taking into consideration the offsetting of balances within the same tax jurisdiction, were as follows:

	Quarter ended 30.06.2026 VND	Year ended 31.12.2025 VND
Opening balance	(670,853,082,405)	(609,348,050,014)
Income statement (charged)/credited	(1,542,244,637)	18,921,271,391
Recognised directly in equity	312,698,811,360	(80,426,303,782)
Closing balance	(359,696,515,682)	(670,853,082,405)

(a) Details of deferred income tax assets

	30.06.2026 VND	01.01.2026 VND
Deductible temporary differences:		
Provisions for margin loans	2,169,825,587	2,169,825,587
Revaluation gain of issued covered warrant	-	12,745,413,817
FVTPL revaluation	1,583,728,814	-
Forex hedging cost	1,950,860,088	387,150,837
	5,704,414,489	15,302,390,241
At tax rate of 20%		
Deferred income tax assets to be recovered within 12 months	1,140,882,899	3,060,478,049
Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.		

(b) Details of deferred income tax liabilities

	30.06.2026 VND	01.01.2026 VND
Revaluation gain of FVTPL financial assets	-	1,886,752,568
Revaluation gain of AFS financial assets	1,804,186,992,906	3,367,681,049,707
	2,379,775,473,489	3,369,567,802,275
At tax rate of 20%		
Deferred income tax liabilities to be recovered within 12 months	360,837,398,581	673,913,560,454

The Company uses tax rate of 20% in 2026 (2025: 20%) for determining deferred income tax assets and deferred income tax liabilities.

21 SHARE CAPITAL

(a) Number of shares

	30.06.2026	01.01.2026
Number of shares registered	1,147,631,925	850,100,000

Ho Chi Minh, July 20th, 2026

Profit of Quarter 2/2026 increased more than 10% against Quarter 2/2025

Vietcap Securities Joint Stock Company (the "Company") would like to extend our formal greetings to your esteemed agencies. In accordance with the Circular 96/2020/TT-BTC issued by the Ministry of Finance on November 16th, 2020 providing guidance on disclosure of information on the securities market, our Company shall account for the profit of Quarter 2/2026 increasing by more than 10% against Quarter 2/2025 in our financial statements as follows:

Items	Quarter 2		Difference	
	Current year VND	Prior year VND	Increase/Decrease VND	% Increase/Decrease
1. Revenue	1,175,711,379,790	1,163,938,886,009	11,772,493,781	1%
2. Cost	904,896,606,112	952,448,334,949	(47,551,728,837)	(5%)
3. Profit before taxes	270,814,773,678	211,490,551,060	59,324,222,618	28%
4. Profit after taxes	250,588,812,865	183,901,836,890	66,686,975,975	36%

Profit after tax in Quarter 2/2026 amounted to VND 250.6 billion, representing a 36% increase compared to the same period last year, driven by the following factors:

During Quarter 2/2026, Vietcap ranked 4th among securities companies with the largest brokerage trading volume on the Ho Chi Minh Stock Exchange (HOSE), achieving a market share of 7%. In the institutional brokerage segment, Vietcap continued to maintain its leading position with a market share of over 28%, contributing to the growth of brokerage revenue from both retail and institutional clients.

Regarding margin lending activities, Vietcap continued to maintain a prudent lending policy, with the margin lending-to-equity ratio kept at a conservative level of 0.97 times, well below the regulatory limit of 2 times. As of 30 June 2026, the outstanding margin loan balance reached VND 16,646 billion, a 4% increase compared to year-end 2025. In Quarter 2/2026, lending revenue totaled VND 463 billion, an 80% increase year-on-year.

Regards.
